## Problem Solving: Draw a Picture and Write a Number Sentence

The table below shows the areas of some of the smallest countries in the world. Use the table for 1-3.

1. How many square miles greater is Maldives than San Marino?

116 square miles

| 24 |  |
| :--- | :--- |

2. Draw a Picture Draw a diagram to show how to find the difference between the areas of Liechtenstein and San Marino. Use your diagram to solve the problem.

| Area of Countries |  |
| :--- | :---: |
| Country | Area <br> (in sq mi) |
| San Marino | 24 |
| Liechtenstein | 62 |
| Maldives | 116 |
| Palau | 177 |

3. Grenada is 15 square miles greater than Maldives. What is the area of Grenada?
square miles

| 116 | 15 |
| :---: | :---: |

4. There are 237 students at Johnson Elementary School. There are 188 students at Hoover Elementary School. How many more students are at Johnson than at Hoover?

237 students

5. Write a Problem Write a real-world problem that you can solve by adding or subtracting. Then give your problem to a classmate to solve.
$\qquad$
